Ref. No.	Date	Time	Location	Measured TSP Level	Unit	Action Level	Limit Level	Follow-up action	
X_15A022	24-Sep-15	8:00	CMA1b - Oil Street Site Office	222.5	24hr TSP (ug/m³)	176.7	260	Possible reason:	Elevated TSP level in relate to local ambient condition around monitoring station
					(3)			Action taken / to be taken:	Reviewed the trend of air quality measurement across monitoring stations. Analysis of Contractor's working procedures.
								Remarks / Other Obs:	No construction activity was undertaken on the monitoring date at around Oil Street under Contractor of HY/2009/19, regular dust suppression measure including watering for haul road was implemented condition and the condition of haul road was observed be generally satisfactory during sample collection. In view of the above, the exceedance was considered to be non-project related and contributed by local ambient condition. Nevertheless, the Contractor was reminded to maintainregularly dust suppression measures for any potential dusty surface and dust generating operation around the concerned location to avoid any potential cumulative air quality impact.
X_15A023	24-Sep-15	8:00	CMA1b - Oil Street Site Office	222.5	24hr TSP (ug/m³)	176.7	260	Possible reason:	Elevated TSP level in relate to local ambient condition around monitoring station
					(3)			Action taken / to be taken:	Reviewed the trend of air quality measurement across monitoring stations. Analysis of contractor's working procedures.
								Remarks / Other Obs:	Thermal barrier preparation works within a section tunnel area with no considerable dust impact to the area outside of the tunnel section was conducted under the Contract of HY/2011/08 on the monitoring date while no exceedance was recoreded at other monitoring station on the same date at location nearer to the tunnel opening. In view of the above, the exceedance was considered not related to the Project and contributed by local ambient condition. Nevertheless, the Contractor was reminded to maintain the regularly dust suppression measures for any dust generating operation above ground around the concerned location to avoid any potential cumulative air quality impact.
